			<p>and gas industries. My time with mining has largely been spent with gold operations including new mine operating plans, compliance auditing, cyanide code pre-certification, gap analysis and certification auditing. I have spent at least 20% of my time working on issues relating to gold mining, transport and production of cyanide including consulting, compliance assessment and formal ICMC audits.</p> <p>I have also been involved with Code auditing (code equivalent audits and certification audits) for transportation within Australia, Papua New Guinea, China, Africa and New Zealand and with cyanide production facilities in Australia, China, and Africa. In addition to auditing I have developed and delivered cyanide management systems and training for mining and transport operations. I spent at least 20% of my time each year working in issues related to managing and handling hazardous materials including production activities, transport and end use.</p> <p>The remainder of my time has been spent consulting to resource development industries on safety management including hazardous materials management. The development of management plans, systems and processes to facilitate the safe extraction, transportation, storage and disposal of hazardous materials.</p>

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
