Cyanide and Operational Related Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years experience

Operation	Yrs	Relevant Position Titles	Types of Operations
Golder Associates	6.5	Senior Environmental Scientist, HES Consultant	<p>Since 2007, I have provided safety and environmental consulting services for the mining, and oil and gas industry. My time with mining has largely been spent with gold operations including new mine operating plans, compliance auditing, cyanide code pre-certification and certification auditing.</p> <p>I have also been involved with Code auditing (code equivalent audits and certification audits) of transportation systems within Australia, Papua New Guinea, Africa and New Zealand and with cyanide production facilities in Australia and Africa. In addition to auditing I have developed and delivered cyanide management systems and training for mining and transport operations. I have spent at least 20% of my time each year working in issues related to transport of hazardous materials (excluding 2010).</p> <p>The remainder of my time has been spent consulting to resource development industries on safety management including hazardous materials management. The development of management plan to facilitate the safe extraction, transportation, storage and disposal of hazardous materials such as contaminated waste.</p>
Coles Group	1.5	Health and Safety Advisor, Western Australia and Northern Territory	<p>December 2005 to July 2007, I provided in-house safety management services to Coles Group Limited for their retail operations in Western Australia and the Northern Territory. The positions was a specialist safety management role with responsibilities including:</p> <ul style="list-style-type: none"> ▪ Incident investigation ▪ Inspection and auditing storage including dangerous goods ▪ Auditing EHS system components including contractor management and management of delivery areas ▪ Internal audit and gap analysis of site implementation of the Safety Care Management System.
London Borough of Richmond	3	Safety Manager/Safety Advisor	<p>2002-2005, I provided in-house safety management services the London Borough Council. The Council was responsible for a diverse range of services including education, waste management, contaminated sites, health, recreation and EHS compliance services. This was a safety specialist role with the focus on the development of EHS systems and auditing of higher risk activities including:</p>

Operation	Yrs	Relevant Position Titles	Types of Operations
			<ul style="list-style-type: none"> ▪ Management of hazardous materials across the council portfolio of properties and services that included designated HAZCHEM sites and associated aspects of hazardous material transport. ▪ Auditing of the Borough EHS management system implementation across council departments. ▪ Developing emergency response plans. ▪ Fire, security, hygiene and hazardous materials risk management. ▪ Incident investigation and reporting. <p>In the three years with Richmond Council I spent two years with least 20% of my time working on issues related to transport of hazardous materials.</p>

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
