**Cyanide-related Operations Experience**

Each auditor must have at least 3 years; at least one auditor must have at least 7 years' experience.

Auditor	Yrs.	Relevant Position Titles	Types of Operations
Kent R. Johnejack	24+	Registered Professional Engineer (Civil); Senior Engineer/Principal; and Certified Environmental Auditor	Since 1995, Kent has worked in the mining industry as a consulting engineer and hydrologist. He has been involved with groundwater and surface water permitting, closure, remediation, spill cleanup, due diligence, waste characterization, sampling and analysis, civil design, construction oversight, regulatory compliance inspections, and auditing. Prior to 1995, Kent worked in land development, infrastructure, and low-level radioactive waste projects.
Evan Jones	12	Registered Professional Engineer (Bio-Resource); Associate, Senior EHS Practitioner; Certified Environmental Auditor	Evan has worked as an EHS consultant with the mining industry since 2004, and on cyanide-related projects since 2007. He is involved with auditing of EHS programs, compliance audits, due diligence audits, and safety and environmental program development, primarily within the mining industry. His experience includes CIL/CIP/RIP plants, heap leach operations, and base metals flotation plants.

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than three consecutive Cyanide Code audits of this facility. I have participated in at least three health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
