2017	Auditor, Australian Gold Reagents Kwinana Production Facility	Kwinana, Western Australia
2016	Lead Auditor Gap Analysis, Unisplendor Xinjiang Production Facility	Xinjiang, China

Cyanide and Operation Related Experience

Operation & Years	Relevant Positions	Types of Operations
Enpoint (1 year)	Principal Consultant	Since joining Enpoint I have been working on a large-scale decommissioning project in petrochemical industry and working with mining clients on assessing and managing environmental impacts and remediation. I have completed auditing and environmental review projects for port facilities and chemical manufacturing and transport.
WSP (2 years)	Principal Consultant	WSP acquired Golder and I continued in the role of Principal Consultant providing the same services as undertaken in my tenure at Golder.
Golder (14 years)	Principal Consultant EHS Specialist Environmental Scientist	During my 14 years at Golder, I provided environmental, health and safety consulting services for the resources sector and supporting industries. My time was mainly spent with mining operations (gold, mineral sands), supporting projects for oil & gas, chemical manufacture and transport with auditing, compliance assessments, system development, hazardous materials management and risk reviews. A large portion (>60%) of that time related to cyanide code specific projects including gap assessments, compliance audits and management system development and implementation support for transport, mining and production clients. I have been involved in cyanide code relates projects since 2007 and these have been located across Australasia, Asia and Africa and working to develop local EHS auditing capabilities in these locations.

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
