Cyanide-related Operations Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years' experience.

Auditor	Yrs.	Relevant Position Titles	Types of Operations
Evan Jones	10	Registered Professional Engineer (Bio-Resource); Associate, Senior EHS Practitioner; Certified Environmental Auditor	Evan has worked as an EHS consultant with the mining industry since 2004, and on cyanide-related projects since 2007. He is involved with auditing of EHS programs, compliance audits, due diligence audits, and safety and environmental program development. His experience includes CIL/CIP/RIP plants, heap leach operations, and base metals flotation plants.
Ivon Aguinaga	15+	Senior Engineer	Since 2000, Ivon has worked in the mining industry as a consulting engineer with emphasis on environmental mine permitting, regulatory compliance auditing, surface water engineering, environmental impact assessments and baseline studies.

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than three consecutive Cyanide Code audits of this facility. I have participated in at least three health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.

Signed	Name	Signature	Date
Lead Auditor*	Evan Jones		July 10, 2017
