Technical Auditor for handling, storage, operations, safety, emergency response, training and public consultation. | Nevada |

Cyanide-related Operations Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years experience

| Auditor | Yrs. | Relevant Position Titles | Types of Operations |
|--|------|---|---|
| Pamela J. Stella, C.E.A., P.G. Masters of Science Geology | 24 | Senior Mining Environmental Consultant | Since 1989, Ms. Stella has provided environmental services to gold mine operations worldwide. She is the National Mining Environmental Coordinator for Golder Associates Inc. and spends approximately 90% of her time providing the following services to gold operations: compliance auditing, mine permitting, ground and surface water management, development of environmental management plans, contingency plans and health and safety plans, project manager for bankable environmental baseline studies and environmental impact assessments for gold mining operations (exploration through closure) to local regulations, international best practices and World Bank guidelines. Her former career as a registered nurse allows her to fully evaluate health and safety issues. Her technical background is in geology and water resources. |
| G. Ivón Aguinaga Civil Engineer, M.Sc. in Environmental Science and Management. | 8 | Senior Project Engineer, Mining Group, Golder Associates Inc. | Ms. Aguinaga has over 8 years of experience in mining environmental projects involving all phases of mining development and operation. Approximately 75% of her experience has been spent with gold operations. This experience includes: compliance auditing, mine permitting, development of mine water balances, environmental studies, review of budgets and schedules for mining environmental projects, and environmental management plans (e.g., environmental contingency plans and occupational health and safety plans). She has been involved in several multidisciplinary environmental impact assessment projects and environmental baseline studies for mining operations. |

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than two consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
