Cyanide-related Operations Experience

Each auditor must have at least 3 years; at least one auditor must have at least 7 years' experience.

Auditor	Yrs.	Relevant Position Titles	Types of Operations
Bruno Pizzorni	11+	Registered Professional Engineer (Civil); Senior Engineer and Certified Occupational H&S Auditor	Bruno has worked in the mining industry as a consultant since 2003. The experience has been at polymetallic and gold mines, and covers mainly health, safety and environmental aspects throughout the mining life cycle. Bruno has training and expertise in Health and Safety and is registered in the OH&S program of the International Register of Certified Auditors (IRCA). Prior to 2003, he worked as a field engineer and project manager in the construction industry for oil and gas or mining projects.
Ivon Aguinaga	12+	Senior Project Engineer	Since 2000, Ivon has worked in the mining industry as a consulting engineer with emphasis on environmental mine permitting, regulatory compliance auditing, surface water engineering, mine water balances, environmental impact assessments and baseline studies.

Statement of No Conflict

I certify that I have not audited any component of this facility for which I was responsible for design or development; nor have I within the past year been an employee of the facility, its parent company, or associated affiliates. Excluding audits, I have not derived more than 30% of my income within the past 5 years from the facility, its parent, or associated affiliates. I have not participated in more than three consecutive Cyanide Code audits of this facility. I have participated in at least 3 health, safety, and/or environmental audits in the past 7 years and am familiar with standard audit procedures as well as with the protocols developed by the International Cyanide Management Institute for implementation of the Code.
